EDUCATION

Bundelkhand Institute of Engineering and Technology — Jhansi, Uttar Pradesh

Bachelor of Technology in Electronics and Communication Engineering | Aug 2023 – May 2027

- CGPA: 8.21 / 10

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Python, Java, SQL
- Web Technologies:** React.js, Next.js, Redux Toolkit, Express.js, Node.js, Socket.io, NextAuth.js, Nginx, Django, FastAPI, Tailwind CSS, REST API Design
- Databases:** PostgreSQL, MySQL, MongoDB, Redis, ChromaDB
- DevOps & Tools:** Docker, Kubernetes, Git, GitHub, AWS, CI/CD (GitHub Actions), Postman, Linux, Playwright
- LLM & Gen AI:** LangChain, LangGraph, RAG, Agents building, Knowledge Graphs, Vector DBs, Prompt Engineering, Context Engineering, OpenAI SDKs
- AI Tools:** Claude Code, Cursor, OpenAI Response APIs, Antigravity IDLE & 2.0, ChatGPT
- Core Competencies:** Full-Stack Development, Authentication & Authorization, Real-Time Systems, State Management, Containerization, ORM Design, Responsive Design

PROJECTS

LiveQuiz — Real-Time Quiz Platform | *Next.js, Redux Toolkit, Express.js, Socket.io, Redis, MongoDB, Docker, AWS EC2, Caddy* | [GitHub](#) | [Live Demo](#)

- Built a real-time quiz platform with a Next.js frontend supporting host-managed quiz creation, shareable participant links, live leaderboards, and an analytics dashboard, using Socket.io for synchronized, low-latency updates across concurrent participants.
- Designed a scalable backend using Redis Sorted Sets for leaderboard ranking and Redis queues for asynchronous processing; deployed the Dockerized backend on AWS EC2 with Caddy-managed HTTPS.

Anonymous Messaging Platform | *Next.js, TypeScript, MongoDB Atlas, NextAuth.js, Docker* | [GitHub](#) | [Live Demo](#)

- Engineered a full-stack web application enabling anonymous messaging for genuine feedback collection, supporting concurrent user sessions with secure NextAuth.js authentication.
- Containerized the application stack with Docker and published to Docker Hub, achieving consistent deployments with sub-2-second page loads and 99.9% uptime on Vercel.

Restaurant Lookup System | *Django, PostgreSQL, Django ORM, JavaScript, Docker* | [GitHub](#) | [Live Demo](#)

- Developed a restaurant management platform with a normalized database schema for cities, restaurants, menus, and ratings using Django ORM.
- Implemented role-based authentication separating restaurant-owner and customer permissions; containerized with Docker Compose and published to Docker Hub.

EXPERIENCE

Full Stack Web Intern | *DevX Alpha — a web agency specializing in custom software solutions for clients worldwide* | [View Certificate](#)

July 2025 – August 2025

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- Hackathon Success:** Runner-Up in a college-level hackathon during Tech Fest (50+ teams); selected for Smart India Hackathon 2024 at the college level.
- Coding Platforms:** Solved 770+ algorithmic problems across CodeChef (2-star, 1500+), Codeforces (1152), and LeetCode (1550), demonstrating strong data structures and algorithms proficiency.
- Winner — "Fee Phantom 2024" Coding Competition:** Secured 1st place in the department-level coding competition "Fee Phantom 2024," organized by the college branch forum.
- Runner-Up — "Chill Hack" Hackathon:** Secured 1st Runner-Up position in "Chill Hack," a hackathon organized by the college community club DevsOnLoop.

CERTIFICATIONS

- Oracle Certified AI Foundation Associate | [View Certificate](#)
- Oracle Agentic AI Certified Foundations Associate | [View Certificate](#)
- JavaScript (Intermediate) Certificate — HackerRank (2024) | [View Certificate](#)
- SQL (Intermediate) Certificate — HackerRank (2026) | [View Certificate](#)
- AWS – Zero To Hero | Complete AWS Intermediate Course (2026) | [View Certificate](#)
